Needs and possibilities in road infrastructure assessment

When

23rd-24th October 2014
9.30 a.m.- 5 p.m.

Where

[Diamant Center](#)
Brussels, Belgium

Dear Reader,

[Register now](#) for this innovative joint event featuring the Tomorrow's Road and Infrastructure Monitoring and Management (TRIMM) project's final conference and the second meeting of the [European Road Profile User's Group](#) (ERPUG) on October 23rd-24th 2014 at the [Diamant Center](#) in Brussels, Belgium.

This one and a half day event will include presentations and discussions on the **possibilities and needs** covering monitoring, management and assessment of road infrastructures. The presentations will be a mix of speeches from exhibitors, invited experts and TRIMM project partners.

TRIMM is a three-year EU 7th Framework Programme ending in November 2014. The project's contribution to the conference will cover advances in the areas of monitoring of roads and bridges, together with implementation aspects such as indicator framework and added-value of monitoring. The TRIMM presentations will cover areas such as the use of 3D images, real time data collection, structural health monitoring and management.

For more information, see <http://trimm.fehrl.org>.

Among the keynote speakers will be Steve Philips from CEDR presenting the Road Administration's **needs** and a speaker covering the **needs** on bridge management. **Possibilities** will be covered by the TRIMM results, ERPUG and exhibitor presentations. You are still encouraged and welcome to propose a presentation related to the themes of the draft agenda below! Please send your interest to leif.sjogren@vti.se.

An exhibition and dinner will also be arranged (fee applies for access). Among the exhibitors/sponsors showing the latest in monitoring are:

- Pavemetrics (<http://www.pavemetrics.com>)
- Pathway Services (<http://www.pathwayservices.com>)
- LMI3D (<http://www.lmi3d.com>)
- Dynatest (<http://www.dynatest.com>)
- Roadscanners (<http://www.roadscanners.com>)
- Vectra Lehman & Partners (<http://vectragermany.com>)
- Fugro (<http://www.fugro.com>)

However, there is still room for more exhibitors/sponsors! Please send your interest to roger.moller@ramboll.se.

[REGISTER NOW](#)

Europe needs a forum to share thoughts, experiences, developments, innovations and practices of how to adapt to the ever changing challenges in the area of road surface monitoring. ERPUG shares the latest and hottest topics such as pavement profile measurement, analysis and quality assurance (QA), pavement surface texture, tyre/road noise, automated pavement condition survey, rolling resistance and ride effects on fuel consumption and wear and tear on vehicles and data usage at road, project and network levels.

- For more information, see <http://www.erpug.org>.

Tentative agenda

Thursday 23rd October

9:30-10:00	Registration
10:00-10:40	Opening and welcome
10:40- 12:00	Reducing costs and environmental impact, increasing efficiency and safety
12:00-13:30	Lunch and exhibition
13:30-15:00	Enhancing the role of condition data in asset management
15:00-15:30	Break and exhibition
15:30-17:00	Multipurpose monitoring for application across all levels of road and bridge asset management
Evening	Get together and dinner

Friday 24th October

9:00-10:30	High speed monitoring of road pavements New and emerging technologies for monitoring
10:30-11:30	Break and exhibition
11:30-13:00	Continuous monitoring of bridges

Yours sincerely,
Robert Karlsson
TRIMM Project Coordinator

Leif Sjogren
Head of ERPUG
